

## Cuba Trip

What I really liked about this trip was being able to talk and interact with Cuban kids our age as well as being able to bond with band members that I wouldn't normally talk to. This was a great experience being able to see how different my life was from many Cubans and has given me a bigger appreciation for what I have in my life. Being able to get to know my band members better was a plus too.

There wasn't anything on the trip that I think I didn't like at least none that come to mind at the moment.

What I think can be improved for the trip is maybe actually having a set homework time because giving students simply free time to their homework isn't always enough to motivate them, especially when they're in Cuba. Another thing I think that can be improved on is having more of a chance to eat Cuban food as well. Another thing I think would be great is if the trip could be extended, and if it is possible for it to be on times like Spring Break.
